

Help us to help save the planet!

We are continually striving to reduce our carbon footprint at the hotel, should you have any suggestions on how we can improve upon our policies please talk to a member of staff.

Here are a few examples of how you can help us achieve our goal and ultimately help the environment whilst staying with us at the hotel.

Conserve Energy

Reduce energy by switching off lights when not needed and closing windows if heating is on. Remember to switch off your room television if you're leaving for the day/evening, along with unplugging any chargers as they still draw power even if there is nothing attached to them!!

Give the car a rest

Leave the car behind, if only for a day. Walk, cycle or use public transport. We can supply timetables for buses and trains, along with information about local walks and outdoor activities. We can help to arrange local cycle hire from Perth.

Reduce, Reuse, Recycle

You can help support us in our efforts to recycle. If you have waste that can be recycled please leave it by your rubbish bin or hand it to a member of staff who will ensure it is disposed of correctly. Be assured that your newspapers, bottles and cans beside are all sorted ready for appropriate recycling.

Be Water Wise

Turn off the tap when brushing your teeth and only fill the kettle with the amount of water required. All our kettles will boil just as well with just one cup of water in rather than full to the spout!

Towel Policy - towels are replaced when required by leaving in the bathtub. If you do not require towels to be replaced, please leave them hanging on the rail – this saves money, water and pollution of water by detergents, etc...

Respect nature

Help us to look after the landscape and wildlife by not littering, guarding against fire and using footpaths and cycle-ways responsibly. Ensure you follow the Countryside Code. When you are enjoying the local sights please remember to bag your rubbish and where possible recycle. Remember, when using designated walks please abide by the signposts and remain on the allocated pathways, which will help ensure our wildlife fauna and flora remain undisturbed and allowed to flourish naturally.

We also would like you to have a great time when you are here, and we'd like you to come back in the future.

If you feel there is anything else we could be doing to reduce our environmental impact please inform a member of our staff.
